SUBISAN R

+91 6369245812 • Chennai, India • subisan5081@gmail.com • github/subisan5081 • linkedin/subisan5081

PROFESSIONAL SUMMARY

Detail-oriented Data Analyst with hands-on experience in Python, SQL, Excel, Power BI, and MySQL. Skilled in data cleaning, data analysis, exploratory data analysis (EDA), data visualization, dashboard development, and reporting. Strong problem-solving and analytical skills with the ability to transform data into meaningful insights and support data-driven decision-making.

EXPERIENCE

Dalmia Bharat limited | Intern| Remote| July 2024 – July 2024

- Monitored operational and instrumentation data to support **process analysis and performance monitoring**.
- Assisted with data collection, analysis, and troubleshooting of instrumentation systems used in plant operations.
- Worked with engineers to monitor automated **SCADA systems** and identify operational issues.
- Maintained accurate operational records and monitored data while following quality standards.

IQmath Technologies | Full Stack Data Analytics Intern | Hybrid | January 2025 – March 2025

- Managed and organized **student and attendance data** using MySQL to support accurate data tracking and reporting.
- Performed **data management and validation** to maintain data accuracy, consistency, and accessibility.
- Worked with structured data to support **attendance monitoring, reporting, and data-driven decision-making**.
- Received a **monthly stipend of ₹8,000** for contributions to data management and portal implementation.

PROJECTS

Vehicle Fuel Consumption Dashboard | Excel

- **Analyzed vehicle fuel consumption data using Microsoft Excel to identify fuel usage patterns and key performance indicators.**
- **Developed an interactive Excel dashboard using Pivot Tables, charts, and data visualization techniques to present actionable insights.**

Banking Management System | MySQL

- **Designed a relational banking database using MySQL with multiple interconnected tables for customers, accounts, transactions, loans, and banking operations**.
- **Implemented SQL queries, joins, subqueries, views, stored procedures, triggers, indexes, and transaction management to analyze and manage banking data.**

Excel Automation Toolkit for Data Management | Excel, VBA

- **Automated repetitive data management and reporting tasks using Excel VBA and advanced Excel functions to improve workflow efficiency.**
- **Developed dynamic reports and custom macros to support data analysis, data organization, and decision-making.**

EDUCATION

Bachelor of Engineering in Electronics and Communication Engineering
St. Joseph's College of Engineering, Chennai, Tamil Nadu | 2022 – 2026
CGPA: 7.95

SKILLS

Programming & Database: Python, SQL, MySQL, Pandas, NumPy
Data Analysis & Visualization: Excel, Power BI, Data Cleaning, EDA, Data Visualization, Dashboard Development
Tools & Techniques: Pivot Tables, Power Query, DAX, Excel VBA, GitHub, Statistical Analysis.

CERTIFICATIONS

Data Science with Python – Besant Technologies *(Currently Pursuing)*
Getting Started with Data Analytics on AWS – Coursera
Data Science & Analytics – HP LIFE
Common Data Analysis Techniques – MATLAB
Clean and Prepare Data for Analysis – MATLAB
Machine Learning using Python – NIELIT, Calicut
Google Cloud Computing Foundations – NPTEL *(Elite Rank)*
NDG Linux Essentials – Cisco Networking Academy
